# DevOps Curriculum

Thank you for registering for the **DevOps Fundamentals training plan.**

Through a series of videos and virtual learning sessions you will be given an overview that will allow you to facilitate necessary baseline knowledge for communication, implementation, and use of fundamental DevOps technologies and methodologies by breaking the learning down into two distinct tracks:

Technical Fundamentals: - Focus on gaining baseline knowledge required for implementation and use of core DevOps tools and technologies (Docker, Vagrant, and Puppet).

Marketing Fundamentals: - Focus on gaining baseline knowledge required for understanding and communication of core DevOps tools, technologies and methodologies (Jira, Confluence, Bitbucked, Github, HipChat)

Overview of the training plan:

Your registration process is now underway and should be completed within 24 hours. You will receive an automated email from My Learning, confirming that the training plan has been assigned. You can also access the training plans through the following link:

https://capgemini.sumtotalsystems.com/sumtotal/app/management/LMS_TrainingPlans.aspx?UserMode=1
